One more piece of information that came from Charles Wood in NHEERL:

Hi Jackie,

It was nice speaking with you this morning. I am a Research Biologist in the Carcinogenesis Branch of ISTD/NHEERL/ORD. My scientific background is in comparative pathology and cancer biology. I am currently the only board-certified veterinary pathologist at EPA. Since 2012, I have served as the in-house pathologist for the EPA Cancer Assessment Review Committee (CARC) and as an ad-hoc advisor for the Toxicology Science Advisory Council in the EPA Office of Pesticide Programs.

Deliberative Process / Ex. 5

Let me know if you need additional information.

Jackie

Matt reviewed this for NCCT. His review is attached.

Don't hesitate to ask if you have questions or want more details.

Subject: FW: Draft Human Health Risk Assessment for Glyphosate

Good afternoon,

Attached for review are 2 documents: OPP's draft glyphosate risk assessment, and the final report of their Cancer Assessment Review Committee (CARC). Providing ORD input on this assessment is of high importance to Tom Burke, so please let me know if your lab/center will be able to accommodate this request.

Deliberative Process / Ex. 5

If possible, let me know by noon this Friday if you identify any issues with the cancer assessment and with the overall document. If you don't think you can meet this deadline, let me know asap and we will raise this up through management to request more time.

Thanks for your quick attention to this. Please call if you want to discuss.

Jackie
